

**James (Jim) McCoy** is the vice president of Information Systems and chief information officer (CIO) for the Intelligence and Information Systems business of Raytheon Company.

Prior to assuming this position, McCoy was a program management director for Integrated Defense Systems (IDS) at Raytheon. His programs focused on the wide area surveillance of land, sea and air objects for a variety of missions including narcotics interdiction and new business opportunities for early launch detection of threats to our homeland security. Additionally he led Space Situational Awareness programs providing capabilities that detect, monitor, catalog, track, and report on space based objects. McCoy also led the Space Fence Capture team.

Previously McCoy was a director within IDS Information Solutions (IS) organization, leading IS strategy, representing IS in acquisition and merger pursuits, and providing systems requirements analysis and needs for Operations, Integrated Supply Chain and Human Resources. McCoy originally joined Raytheon in 1985 as a failure analysis engineer and has held positions of increasing responsibility

## Biography

in product assurance engineering, operations, supply chain management, information technology and program management.

From 2001-2003, McCoy worked in the optical telecommunications industry as a director of product life cycle management and new product introduction.

McCoy has been active in community relations having served on the board and presided over several organizations within his community and on the Raytheon IDS IS Community Solutions board. Recently he has become involved with the MathMovesU program promoting Math and Science Education and career opportunities in sciences and engineering to young students as well as Raytheon's Mentor-Protégé program.

McCoy graduated from Boston University with a bachelor's degree in computer engineering. He also received a master's of business administration degree from the Boston University Executive MBA program. He is a graduate of Raytheon's Principles of Program Leadership program, Strategic Leadership program and a Raytheon Six Sigma™ qualified specialist.
