

Stephen R. Olive is vice president of Business Solutions and Integration within Raytheon's Integrated Defense Systems (IDS) business. In this role, he is responsible for the architecture, design, development and deployment of the enterprise-wide processes and tools that are required for Raytheon to deliver cost-effective NoDoubt™ solutions to its customers. Olive was appointed to this role in June 2007. He also serves as Raytheon's campus executive for Northeastern University and mission center executive of Raytheon's Cross Business Integration Center in Billerica, Mass.

Raytheon Company, with 2008 sales of \$23.2 billion, is a technology and innovation leader specializing in defense, homeland security and other government markets throughout the world. With a history of innovation spanning 87 years, Raytheon provides state-of-the-art electronics, mission systems integration and other capabilities in the areas of sensing; effects; and command, control, communications and intelligence systems, as well as a broad range of mission support services. With headquarters in Waltham, Mass., Raytheon employs 73,000 people worldwide.

Integrated Defense Systems is Raytheon's leader in Global Capabilities Integration providing affordable, integrated solutions to a broad international and domestic customer base, including the U.S. Missile Defense Agency, the U.S. Armed Forces and the Department of Homeland Security.

Prior to assuming his current position, Olive was the chief information officer and vice president of Information Solutions (IS) for Raytheon IDS. In this role, he was responsible for providing strategic and operational leadership to the IDS IS team.

Biography

Before becoming vice president and CIO, Olive was the director of Information Technology (IT) for the Air/Missile Defense Systems (A/MDS) business unit of Raytheon Electronic Systems. In this role, he was responsible for all aspects of IT that supported the A/MDS business unit, including the mainframe, servers, desktops, major projects, site support and applications.

Olive joined Raytheon in 1987 as a manufacturing supervisor. Since then, he has held a wide range of challenging positions that span organizations, including technical supervisor in the Manufacturing organization; software engineer in the Engineering organization; supplier quality engineer, electrical section manager and systems section manager in the Quality organization; material quality systems manager in the Supply Chain Management organization; and center of excellence/Northeast operations IT director in the IT organization.

Olive earned a bachelor's degree in engineering technology and a master's degree in business administration with a concentration in information technology from Northeastern University. He was named one of the premier 100 IT leaders by *Computerworld* magazine in 2006.

Olive serves as the executive sponsor of the Northeast chapter of the Raytheon Asian Pacific Association. He is a qualified Raytheon Six Sigma specialist and a graduate of numerous Raytheon leadership programs, including the Business Leadership Program, Strategic Leadership Program, Program Management Course, and Front-Line Leadership. He is currently enrolled in Raytheon's Executive Leadership Summit. He was born in Medford, Mass.
