

ELCAN Specter® DR 1-4x

Dual Role Military Tactical Weapon Sight

ELCAN Specter® DR 1-4x dual role military tactical weapon sight is a dual-field-of-view (DFOV) sight providing both close quarter and precision fire ranged capability in a single package.

Benefits

- Uncompromised situational awareness:
 - Switches instantly between magnifications
 - Eye relief and bore sighting remain constant between magnifications
 - Generous 70mm eye relief and wide viewing angle for rapid “both eyes open” target acquisition
- High efficiency broadband coatings and large exit pupil diameter for extended low light performance
- Shock protected precision optics for rugged, reliable performance
- Two sights in one and Integrated lever-lock mount for optimum weight reduction

Overview

The ELCAN Specter® DR 1-4x dual role combat sight is a revolutionary optical design that combines the best of close and precision fire ranged combat features into a single, low profile dual-field-of-view (DFOV) sight.

The ELCAN Specter® DR 1-4x DFOV with its dual-role capability lets soldiers move safely through buildings or confined areas in red dot mode 1x and then instantly switch to 4x to accurately engage enemies at extended range without changing sights.

Situational awareness in both magnifications is improved

with ultra-wide viewing angles and unmatched viewing in low light conditions. The ELCAN Specter® DR dual role combat sight is half the weight and twice the capability of carrying two scopes, without compromise to mission effectiveness or reliability.

Specifications

Dimensions	153mm x 76mm x 76mm
Weight	640 g (1.41lb)
Magnification	1x 4x
Field-of-View	24° 6°
Entrance Pupil	32mm (1.26")
Exit Pupil	7.8mm (0.31")
Eye Relief	70mm (2.75")
Battery	DL 1/3N
Reticle	Illuminated red dot with 5.56 or 7.62 NATO ballistic drop
Mount Attach	3 Picatinny rail compatible mounts available
