

Raytheon Integrated Defense Systems

These terms and conditions are an integral part of the purchase order which calls them out.
The revision in effect at the time of prime contract award applies.

AIR FORCE SUPPLEMENT – AMENDED FOR SUPPLIERS

TCA 021 Rev 1

AIR FORCE SUPPLEMENT – AMENDED FOR SUPPLIERS

ASCFARS 52.204-9201 Foreign Sources (Undated)

In the event that the Supplier anticipates soliciting foreign sources for any work under this contract, the Supplier shall notify the Contractor who shall notify the Contracting Officer (CO) 10 working days before either, applying for an export license under International Traffic in Arms Regulation (ITAR), 22 CFR Section 121-128, or before solicitation of the foreign sources, whichever shall occur first. This notification shall include a detailed description of the Government data/equipment to be exported and a copy of the application for an export license, if such application has been made. This notification to the CO shall not be construed as an application for an export license, nor shall it in any way be interpreted to impede the Supplier's or Contractor's right to apply for an export license. However, if the CO disagrees with the application, the Contractor, and hence the Supplier, will be so notified.

ASCFARS 52.204-9202 Foreign Nationals (Undated)

- (a) For purposes of this clause, foreign nationals are all persons not citizens of, or immigrant aliens to, the United States. Nothing in this clause is intended to waive any requirement imposed by any other US Government agency with respect to employment of foreign nationals or export control.
- (b) The Contractor acknowledges that equipment/technical data generated or delivered in performance of this contract is controlled by International Traffic in Arms Regulation (ITAR) 22 CFR Sections 121-128, and may require an export license before assigning any foreign national to perform work under this contract or before granting performance of this contract (see 22 CFR Section 125.03 in this regard). The Contractor agrees to notify the Contracting Officer (CO) 10 working days prior to assigning or granting access to any work, equipment or technical data generated or delivered in performance of this contract. This notification will include the name and country of origin of the foreign national, the specific work, equipment or data to which the person will have access, and whether the foreign national is cleared to have access to technical data (Reference: Section 3 of DOD 5220.22-M, "Industrial Security manual for Safeguarding Classified Information").
- (c) The above requirements shall not be construed as an application for an export license, nor shall they in any way be interpreted to impede the Contractor's right to apply for an export license. However, if the CO disagrees with the application, the Contractor, and hence the Supplier, will be so notified.
