

Episode #6 – Show Notes
Thursday, June 19, 2009
Length: 15:22
Hosts: John Patterson & Anne Marie Squeo

Content Summary:

Dual Band is a special 2009 Paris Air Show podcast series. Each day of the show, we'll profile senior company leaders and showcase some of the aerospace and defense technologies being spotlighted at Le Bourget.

On our last episode of this special Paris Air Show edition of Dual Band, we talk with Jon Jones about responsive space. Tom Hawkins gives us an update on smart display technology for the F-16 and Steve Hawkins talks about Raytheon's cybersecurity business strategy. We wrap today with Mike Olson, who explains what it's like to essentially build a conference center in the middle of an airfield.

Guests:

- Jon Jones, president of Raytheon Space and Airborne Systems
- Tom Hawkins, director of Systems Integration and Engineering, Raytheon RTSC
- Steve Hawkins, vice president of Information Security Solutions, Raytheon IIS
- Mike Olson, senior manager Trade Shows, Raytheon Company
