ELCAN Specter® DR 1.5-6x

Dual Role Military Tactical Weapon Sight

ELCAN Specter® DR 1.5-6x dual role military tactical weapon sight is a dual-field-of-view (DFOV) sight providing target acquisition and long-range precision fire and suppression.

Benefits

- Uncompromised situational awareness:
 - Switches instantly between magnifications
 - Eye relief and bore sighting remain constant between magnifications
 - Generous 70mm eye relief and wide viewing angle for rapid “both eyes open” target acquisition
- High efficiency broadband coatings and large exit pupil diameter for extended low light performance
- Shock protected precision optics for rugged, reliable performance
- Two sights in one and integrated lever-lock mount for optimum weight reduction

Overview

The ELCAN Specter® DR 1.5-6x dual role combat sight is a revolutionary optical design that combines the best of close and precision fire ranged combat features into a single, low profile dual-field-of-view (DFOV) sight.

The ELCAN Specter® DR 1.5-6x DFOV with its dual-role capability gives machine gun operators and designated marksmen a sweeping 1.5x view of the battlefield for target

acquisition, then allows instant switching to 6x for accurate long-range precision fire and suppression. Situational awareness in both magnifications is improved by wider viewing angles and unmatched light gathering capability in low light conditions. ELCAN Specter® 1.5-6x is available with 5.56, 7.62 or 50cal reticles.

Specifications

Dimensions	184 x 76 x 76 mm (7.25" x 3" x 3")
Weight	700 g (1.54lb)
Magnification	1.5x 6x
Field-of-View	16° 4°
Entrance Pupil	42.4mm (1.67")
Exit Pupil	7mm (0.275")
Eye Relief	70mm (2.75")
Battery	DL 1/3N
Reticle	Illuminated red dot with 5.56, 7.62 or .50 cal NATO ballistic drop reticle
Mount Attach	3 Picatinny rail compatible mounts available
