

Biography

David Wajsgras is a Raytheon Company vice president and president of the Intelligence, Information and Services (IIS) business. He has held this position since March 2015 and is a member of Raytheon's senior leadership team. Raytheon Company (NYSE: RTN), with 2017 sales of \$25 billion and 64,000 employees, is a technology and innovation leader specializing in defense, civil government and cybersecurity solutions. Raytheon is headquartered in Waltham, Massachusetts.

IIS is a global leader in intelligence, surveillance and reconnaissance; advanced cyber solutions; weather and environmental solutions and information-based solutions. It provides training, logistics, engineering, product and operational services and solutions for special missions, homeland security, space, civil aviation, counter-proliferation, counterterrorism and cyber markets. Key customers include the U.S. and international governments across multiple departments and agencies, as well as commercial enterprises.

Wajsgras was senior vice president and chief financial officer of Raytheon Company from March 2006 to March 2015. As a member of Raytheon's senior leadership team, he directed Raytheon's overall financial strategy. Wajsgras provided extensive financial and operational expertise, and his responsibilities included financial reporting and controls, merger and acquisition activity, planning and analysis, investor relations, tax and treasury.

Prior to joining Raytheon, Wajsgras was executive vice president and chief financial officer of Lear Corporation. As chief financial officer, he led strategic repositioning/restructuring of the company and drove the successful completion of several domestic and international acquisitions, with a focus on manufacturing footprint and channels to market. He joined Lear in 1999. Wajsgras also had Profit & Loss responsibility for The Interior Systems Business, the global manufacturing division of the corporation.

Before joining Lear, Wajsgras was corporate controller for Engelhard Corporation where he was responsible for internal and external reporting as well as corporate accounting. He also held numerous financial management positions with Honeywell International, Inc., including financial leader of the global shared services group. He led the realignment and consolidation of operational and administrative activities in multiple business units.

While CFO, Wajsgras was named one of the Wall Street Journal's 25 Best CFOs of 2012 among larger companies in the Standard & Poor's 500 index. He was inducted into Executive Mosaic's Wash100 selection of influential leaders in the government contracting arena in 2015, 2016 and 2017.

Wajsgras is on the board of directors for Forcepoint and Raytheon Arabia and serves on the Center for a New American Security Advisory Board and the Intelligence and National Security Alliance Board of Directors. He is also a "Founders' Group" member of the National Cryptologic Museums' Cyber Center for Education and Innovation New Museum project; Chairman of the Kogod Cybersecurity Governance Center Advisory Committee at American University in Washington, D.C.; a member of the Kogod Advisory Council for the Kogod School of Business; and the Board of Trustees of the Lahey Clinic Foundation in Burlington, Massachusetts.

Wajsgras is also Executive Champion of Raytheon's Persons with DisAbilities (RPDA) Employee Resource Group. This organization works as a strategic partner across the company to create a fully accessible and supportive workplace for employees with disabilities.

Wajsgras earned his bachelor's degree in accounting from the University of Maryland in College Park. He has an MBA from American University.
