

LEARNING SOLUTIONS

# EASE & **FLEXIBILITY** IN LEARNING MANAGEMENT

## Key Benefits

### **Speedy Implementation:**

- RPS can implement your new system in less than a day — instead of the two to six weeks required for many systems.

### **Efficient, Quality**

#### **Controlled Migration:**

- A large, global high tech firm:
  - Merged records from 6 LMS's
  - 43 million records migrated
  - Simplified from 105,000 courses to 20,000 courses.

### **Global Support:**

- System available in 22 languages; RPS currently supports customers in over 100 countries.

### **Overcome the LMS Barrier:**

- Lower cost through open source, ease of configuration, broad partner network support.

By Raytheon Professional Services

## Raytheon Flex Learning Management Services

Your Learning Management System (LMS) is an important and strategic part of your learning ecosystem. As such, it must meet a number of key criteria:

- Your LMS must be reliable, affordable, scalable and flexible in order to remain responsive to today's evolving learning needs and trends. The technology should be easy to use; address your company's IT requirements and business objectives; and meet critically important security standards.
- Your LMS must deliver an optimal learning experience to the end users. More and more, it's not about having the most features — it's about the most relevant features.
- Finally, no matter what LMS you choose, it should be supported by people with extensive technology expertise, who understand your unique environment and needs, and whose only goal is your complete satisfaction.

It's a tall order. In fact, it's such a tall order, recent studies tell us that you are likely to be unsatisfied with your current environment.

## Introducing an End-to-End Solution

RPS delivers an end-to-end solution that includes open source technology, migration services, implementation, and ongoing support services.

Flex Learning Management Services combines the most adaptable open source platform, private cloud learning technology, and efficient migration approach, together with flexible and expert LMS consulting services. These were developed to implement and support specific and evolving customer needs, with a focus on providing the maximum level of speed, agility, adaptability, cost effectiveness, flexibility and security.

## LMS Consulting Services

Raytheon Professional Services brings over two decades of LMS expertise to help address a full spectrum of customer needs. Our suite of LMS consulting services includes evaluation, selection, implementation and ongoing support. We don't believe in one-size-fits-all solutions, so we work with you and your team to determine the optimal adaptation of technology, infrastructure and support to maximize the learner experience and impact on the business.

## The Freedom of an Open Source Learning Platform

Flex Learning Management Services includes 100% open source technology from Totara Learning. This learning platform allows for quick configuration, ease of customization (you determine how much or how little you want), superior functionality and usability, and full delivery services. The Totara learning system offers capabilities for both formal and informal as well as robust evaluation and reporting features.

## Private Cloud Learning Technology

Our state-of-the-art virtual private cloud for each customer ensures your system is secure and can automatically auto-scale as needed. (For those that like to look under the hood, we would love to explain more.)

## Migration Services

Easier data migration leads to faster implementation of new systems, so you can be up and running fast — gaining the benefits of retaining your important past learning information — with minimal manual intervention.

As part of our pain-free migration services, we assist with extracting data from current systems, ensure data is cleansed, normalized, and custom formatted according to customer requirements, validated and tested before transfer to new systems. All of this helps you retain important data from your legacy systems while keeping your historical reporting intact.

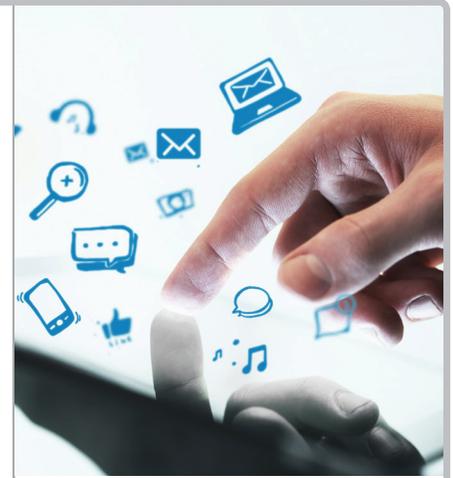

## Experience in Action

Our Flex Learning Management Services is based on many years of experience and partnerships with customers. We understand the pain points and how to address them. Our team is always looking for better, more effective ways to deliver, maintain and manage a variety of learning platforms.

## Contact Raytheon Professional Services Today

Raytheon Professional Services serves clients in more than 125 countries and 29 languages. Our Flex Learning Management Services is another example of how we continue to provide agile, flexible solutions that meet the rapidly evolving needs of diverse global organizations.
