

ADAPTIVE LEARNING

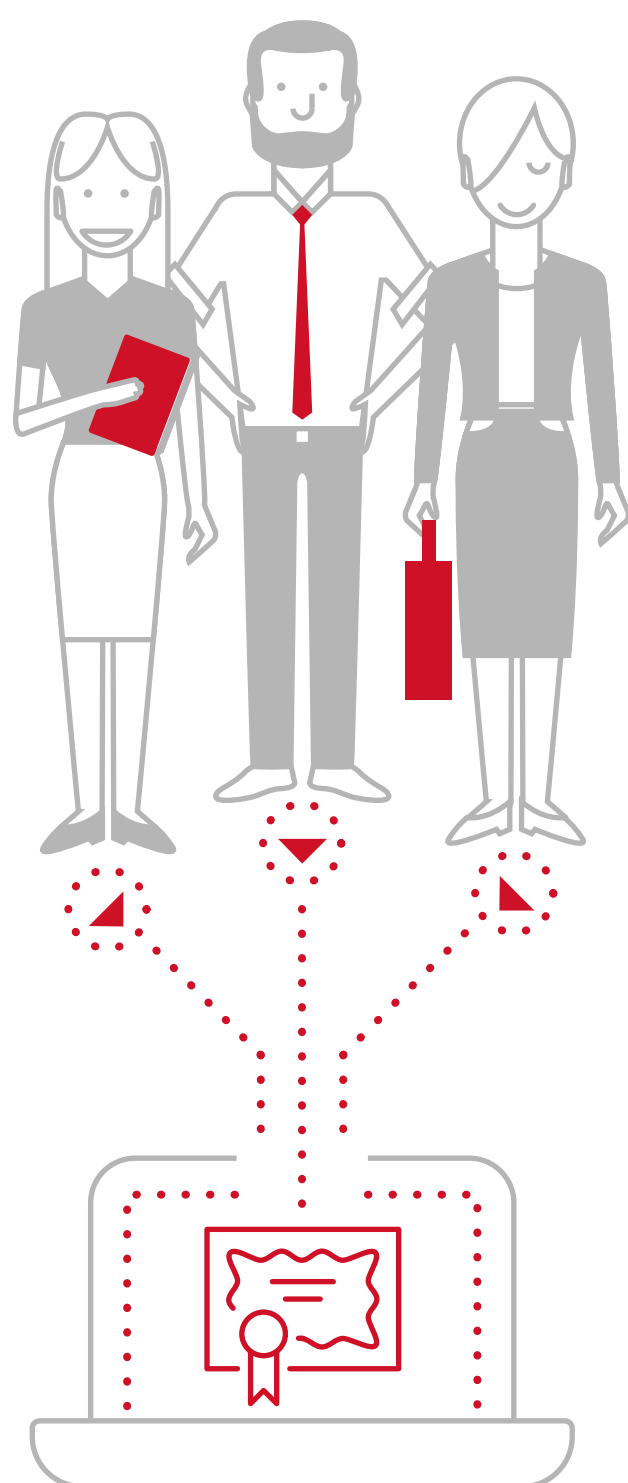

DYNAMIC SOLUTIONS FOR A RESPONSIVE AND EFFECTIVE APPROACH TO LEARNING

Definition and Approach

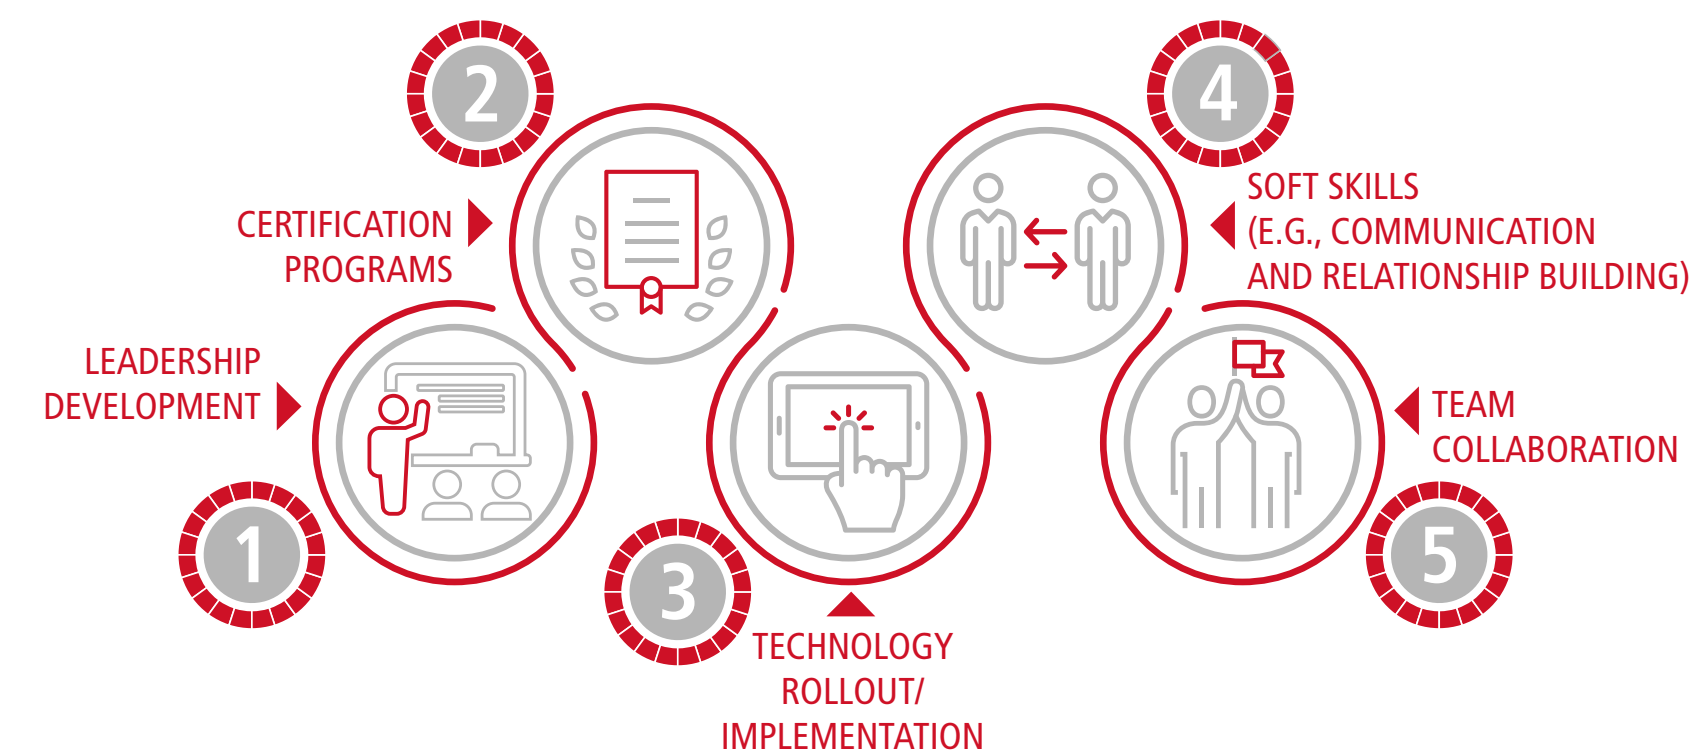

Raytheon Professional Services (RPS) prioritizes **adaptive learning**, which is a data-driven approach that personalizes training content at the skill and competency level to maximize workforce performance. Adaptive learning, developed with the right technology infrastructure, delivers more relevant and responsive learning.

RPS is a comprehensive training solutions provider with expertise that delivers significant benefits.

- ▶ Align content to learning and business objectives
- ▶ Address skill gaps for individuals
- ▶ Leverage analytics to ensure effectiveness
- ▶ Deliver relevant and effective training
- ▶ Sustain impact post-training
