Raytheon Saudi Arabia to feature defense and cybersecurity innovations at AFED 2018

RIYADH, Kingdom of Saudi Arabia (Feb. 19, 2018) – Raytheon Saudi Arabia, a wholly owned subsidiary of Raytheon Company (NYSE: RTN), will participate in the upcoming Armed Forces Exhibition for Diversity of Requirements and Capabilities where it will showcase industry-leading defense, aerospace and cyber technology through 3-D immersive demonstrations.

“AFED brings together the Kingdom’s most influential and innovative industry partners, and is an important milestone on the Kingdom’s path toward reaching fifty percent localized defense production by the year 2030. Raytheon Saudi Arabia is proud to participate in this important exhibition, and of its strategic partnerships with Saudi Arabian Military Industries and other key Saudi organizations,” said Kurt Amend, Chief Executive of Raytheon Saudi Arabia.”

Last November, Raytheon Company announced the completion of the official commercial registration requirements for Raytheon Saudi Arabia, which allows the Riyadh-based business to accelerate its localization strategy in support of the Kingdom’s Vision 2030.

Raytheon Saudi Arabia is expected to include in-country program management, supply and sourcing capabilities, improved customer access and centralized accountability. These programs will positively impact Saudi and U.S. economies including job creation.
