Welcoming New Council Members

The Raytheon Enterprise Supplier Advisory Council conducted its quarterly meeting at the Hyatt Regency Boston Harbor on Oct. 2-3.

The group gathered in Boston and took a water taxi across the harbor for dinner on Oct. 2. This was followed by an all-day general session meeting Oct. 3 where five new supplier members were welcomed to the team.

October’s agenda included the following items of discussion:

- **Introduction of New Supplier Members**
  Five new suppliers have joined the ESAC, and we look forward to having them onboard. They are:
  - Phil Pollak of Anacapa Micro Products
  - Tracy Maier of BCD Travel
  - Curt Weinstein of Corning Inc.
  - Bob Chisholm of FishEye Software
  - Ed Hanrahan of Secure Technology

- **Supplier Inputs**
  Since the ESAC inception in early 2017, the supplier members have been instrumental in providing feedback and input to collaboratively develop solutions for our supply chain. The following topics were “homework assignments” for the suppliers, whose feedback was reviewed and discussed as potential improvement focus areas:
  - Exostar web portal
  - Letters of Subcontract

- **Project Updates**
  Detailed presentations were given on both the SRS Supplier Protest functionality and Automated Submission of Proposals and Electronic Compliance Tracking project.

For additional information on any topic discussed or to recommend a topic for future ESAC sessions, email ESAC@raytheon.com.
