

Memorandum

May 29, 2019

To: Amanda Lamoureux/Mark Hammond

Ref. No.: 017211

From: Matthew Griffin/cb/20

**Subject: Documentation Report for 2018 Reporting Year
O. Reg. 127/01, National Pollutant Release Inventory, Greenhouse Gas and
Toxics Reduction Act Reporting
Raytheon ELCAN Optical Technologies, Midland, Ontario**

This memorandum has been prepared to provide documentation for the O. Reg. 127/01, National Pollutant Release Inventory (NPRI), Toxics Reduction Act (TRA) and Greenhouse Gas reporting for 2018 for the Raytheon ELCAN Optical Technologies (ELCAN) Plant 1 facility in Midland, Ontario.

The memorandum is summarized in the following sections:

1. NAICS Code Classification & Reg. 127 Applicability
2. NPRI/Reg. 127 Applicability
3. Manufacture, Process, or Otherwise Use Threshold Determinations
4. NPRI CAC Air Emission Release Estimates
5. Environment Canada GHG Summary
6. Ontario Regulation 390/18 GHG Reporting
7. Toxics Reduction Act, O. Reg. 455/09
8. Section A Administrative Information
9. Conclusions
10. Next Steps – TRA

Additional documents are attached and include:

- Attachment 1 – 2018 Confirmation of Report Submission
- Attachment 2 – 2018 NPRI Inventory Report

1. NAICS Code Classification & Reg. 127 Applicability

ELCAN is a manufacturer of complex, precision opto-mechanical and electro-optical systems and subsystems for projection display. Activities include machining, assembly, warehouse and painting operations. The North American Industry Classification System (NAICS) Code that applies to this Facility is

333310 – Commercial and Service Industry Machinery Manufacturing. This NAICS code is on Table 1 of Reg. 127, therefore ELCAN is required to assess against Reg. 127.

2. Reg. 127 Table 2B and NPRI Parts 1, 2, 3 Applicability

All contaminants have been removed from Reg. 127 Table 2A, and all compounds have been removed from Table 2B with the exception of acetone. CBB does not use acetone and is therefore not Reg. 127 reportable.

The Facility will be required to calculate and report the emissions of substances listed in NPRI annually only if both of the following criteria are met:

- The equivalent of 20,000 hours of labour or more annually (equal to 10 full time employees).
- Any substance in NPRI has manufactured, process or otherwise used (MPO) quantities that are equal to or greater than the corresponding MPO threshold identified in NPRI and Reg. 127.

Since the Facility employs more than 10 people, the first criterion is met and the Facility did use acetone and compounds listed on NPRI as raw materials during the 2018 reporting year, as summarized in Table 1. Therefore, Reg. 127 and NPRI MPO criteria were assessed, as summarized in Table 1. The compounds that exceed the MPO thresholds as specified with a "Yes" are therefore reportable. Acetone and Selenium were determined to be reportable under NPRI Part 1.

3. Manufacture, Process, or Otherwise Use Threshold Determinations

Raw materials used by ELCAN in 2018 consisted of a variety of chemical and welding products as well as lens material. The usage rates of each of the chemicals contained in the materials used are listed in Table 1.

The MPO quantities for the Facility were compared with the NPRI MPO thresholds to determine reporting status. The MPO quantities for acetone (Reg. 127) and total selenium (NPRI Part 1B) exceed the NPRI thresholds and are therefore, reportable. The NPRI reportable quantities are summarized on Table 1.

4. NPRI CAC Air Emission Release Estimates

The quantities of NPRI Criteria Air Contaminants (CAC) from natural gas combustion are determined using an emission factor calculation methodology and the monthly natural gas consumption provided by ELCAN, and is summarized in Table 2.

Volatile organic compounds (VOCs) released from chemical usages are identified as all compounds used which meet the criteria of an organic compound, as per the NPRI definition. It has been conservatively assumed that 100 percent of all VOCs are emitted to the atmosphere. The total VOCs released are included on Table 2.

Since the VOC threshold has been exceeded, the Part 5 NPRI Speciated VOCs must be assessed for additional reporting requirements. As shown in Table 3, the Facility is not reportable for any Part 5 VOCs.

2.5 µm Particulate Matter (PM_{2.5}) releases from the spray booths sent through a filter system prior to being released to the atmosphere – the total releases are estimated based on the summation of the total solids contained in materials used within the spray booths (identified by ELCAN) and the filter efficiency of 99.1 percent. The emissions from lens usage are based on 3.1 percent of total usage emitted as total PM, with 25 percent of that emitted as PM₁₀ and 1 percent emitted as PM_{2.5} as based on previous testing. The 10 µm Particulate Matter (PM₁₀) emissions generated from process welding are calculated based on an AP-42 emission factor for Gas Metal Arc Welding, Chapter 12.19. The particulate matter emission releases are summarized on Table 2.

5. Environment Canada GHG Summary

Federally, Under Section 46 of the *Canadian Environmental Protection Act, 1999* (CEPA 1999), *Notice with respect to reporting of greenhouse gases (GHGs) for 2017*, Facilities must report their GHG emissions to Environment Canada if they exceed 10,000 tonnes carbon dioxide equivalent (CO_{2e}).

The federal reporting requirements and sources to include in the reporting are described in the Canada Gazette. ELCAN does not exceed the reporting threshold and therefore is not required to report GHG emissions to Environment Canada. The applicability threshold determination is presented in Table 4A.

6. Ontario Regulation 390/18 GHG Reporting

Under Ontario Regulation 390/18 Greenhouse Gas Emissions Reporting (O. Reg. 390/18), Facilities are required to report in June 2019 for the 2018 calendar year emissions if they exceed 10,000 tonnes of carbon dioxide equivalent (CO_{2e}). The regulation sets out sources that must be included in the threshold determination as well as reporting requirements.

The ELCAN sources included in O. Reg. 390/18 are stationary combustion sources. ELCAN's GHG emissions do not exceed the threshold, therefore the Facility is not required to report GHG emissions to the Ministry of the Environment. The applicability determination is presented in Table 4B.

7. Toxics Reduction Act Reporting

The TRA and Regulation 455/09 applies to manufacturing (NAICS 31-33) and select mining/processing facilities that employ more than an equivalent of 10 full-time persons, and who use or create acetone or materials regulated by the NPRI.

ELCAN's NAICS Code is 333310 – Commercial and Service Industry Machinery Manufacturing and the Facility is NPRI Reportable for the 2018 reporting year; therefore, ELCAN is currently applicable under the Act.

The reporting thresholds for the Toxics Reduction Act are harmonized with the NPRI reporting thresholds, meaning that ELCAN is reportable for the following compounds in 2018 (total VOCs are not applicable under the TRA):

- Acetone (CAS# 67-64-1)
- Total Selenium (CAS# NA-12)

The NPRI and TRA reportable quantities are summarized in Table 5.

ELCAN has previously prepared Toxic Substance Reduction Plans for Acetone and Total Selenium.

8. Section A Administrative Information

The administrative information provided by ELCAN is summarized in Table 6.

9. Conclusions

ELCAN is reportable to NPRI for total selenium, and Total VOCs. ELCAN is reportable to Reg. 127 for acetone. These compounds are also reportable under TRA (except for Total VOCs).

A summary of administrative information for the Facility is provided in Table 6.

A summary of the change of NPRI and TRA reportable quantities from the year 2018 to 2019 is provided in Tables 7A through Table 7E.

10. Next Steps – TRA

ELCAN is required to make available to the public on the internet, and provide to a member of the public upon written request, the information reported to the Toxics Reduction Act in accordance with Section 27 of O. Reg. 455/09. A NPRI/TRA Public Reporting Summary for ELCAN is provided in Attachment 2.

Should you have any questions on the above, please do not hesitate to contact us.

Natural Gas	30	10		
Spray Booths ⁽⁵⁾		4		
Lenses ⁽⁶⁾		63		
Welding ⁽⁷⁾		0.2		
Total		78	500	No
2.5µm Particulate Matter ^(2, 3)				
Natural Gas	30	10		
Spray Booths ⁽⁵⁾		4		
Lenses ⁽⁶⁾		3		
Welding ⁽⁷⁾		0.2		
Total		17	300	No
VOC				
Natural Gas	88	29		
Chemical Usage ⁽⁸⁾		14,702		
Total		14,731	10,000	Yes

Notes:

- (1) Emission Factors are from USEPA AP-42 for boilers < 100MMBtu.
- (2) Based on Facility-wide natural gas combustion, welding, and painting.
- (3) PM_{2.5} is a subset of PM₁₀, and PM₁₀ is a subset of PM.
- (4) AP-42 defines natural gas combustion particulate emissions as less than 2.5 µm.
- (5) Assumed that 1% of solids contained in sprayed products are released as PM_{2.5}.
- (6) Assumed that 3.1% of lens material is released as PM. 25% of PM is assumed to be PM₁₀, and 1% of PM is released as PM_{2.5}.
- (7) USEPA AP 42 emission factors from Chapter 12.19 for welding used for PM₁₀ from welding. Further assumed 75% of PM₁₀ releases are PM_{2.5}.
- (8) VOC releases from chemical usage based on the sum of all chemical usages considered VOCs (as per Environment Canada's definition) and conservative assumption that 100% of these compounds are released to the atmosphere.

Aliphatic Hydrocarbons	8052-41-3	14.86	1,000	No
1,2,4-Trimethylbenzene	95-63-6	0.42	1,000	No

Notes:

- (1) Emissions of individual VOCs have been estimated based on total usage of compound and assumption that 100% is emitted to the atmosphere. Detailed calculations of the usages are calculated separately and can be provided upon request.
- (2) It is assumed that there are no releases to atmosphere from the product 2A Alcohol, as this product is 100% recycled on-Site.

Attachment 1

2018 Statement of Certification

Report Submission and Electronic Certification

NPRI - Electronic Statement of Certification

Specify the language of correspondence

Comments (optional)

I hereby certify that I have exercised due diligence to ensure that the submitted information is true and complete. The amounts and values for the facility(ies) identified below are accurate, based on reasonable estimates using available data. The data for the facility(ies) that I represent are hereby submitted to the programs identified below using the Single Window Reporting Application.

I also acknowledge that the data will be made public.

Note: Only the person identified as the Certifying Official or the authorized delegate should submit the report(s) identified below.

Company Name

Certifying Official (or authorized delegate)

Report Submitted by

I, the Certifying Official or authorized delegate, agree with the statements above and acknowledge that by pressing the "Submit Report(s)" button, I am electronically certifying and submitting the facility report(s) for the identified company to its affiliated programs.

ON MECP TRA - Electronic Certification Statement

Annual Report Certification Statement

As of 29/05/2019, I, Katharine Rowe-Bailey, certify that I have read the reports on the toxic substance reduction plans for the toxic substances referred to below and am familiar with their contents, and to my knowledge the information contained in the reports is factually accurate and the reports comply with the Toxics Reduction Act, 2009 and Ontario Regulation 455/09 (General) made under that Act.

TRA Substance List*

CAS RN

Substance Name

NA - 12

Selenium (and its compounds)

*Due to reporting system limitations, for the 2018 annual report the TRA Substance List may included new Volatile Organic Compounds (VOCs) and/or Dioxins and Furans congeners reported to NPRI only.

Company Name

Raytheon Canada Limited

Highest Ranking Employee

Katharine Rowe-Bailey

Report Submitted by

Katharine Rowe-Bailey

Website address

I, the highest ranking employee, agree with the certification statement(s) above and acknowledge that by checking the box I am electronically signing the statement(s). I also acknowledge that by pressing the 'Submit Report(s)' button I am submitting the facility record(s)/report(s) for the identified facility to the Director under the Toxics Reduction Act, 2009. I also acknowledge that the Toxics Reduction Act, 2009 and Ontario Regulation 455/09 provide the authority to the Director under the Act to make certain information as specified in subsection 27(5) of Ontario Regulation 455/09 available to the public.

Submitted Report

Period	Submission Date	Facility Name	Province	City	Programs
2018	29/05/2019	Raytheon ELCAN Optical Technologies	Ontario	Midland	NPRI, ON MECP TRA, ON MECP

Note: If there is a change in the contact information for the facility, a change in the owner or operator of the facility, if operations at the facility are terminated, or if information submitted for any previous year was mistaken or inaccurate, please update this information through SWIM or by contacting the National Pollutant Release Inventory directly.

Contact Type	Person who prepared the report, Contractor Contact
Name:	Matthew Griffin
Position:	Engineer
Telephone:	5193403794
Fax:	5198840525
Email:	mgriffin@croworld.com
Independent contractor/consultant company name:	GHD

General Information

Number of employees:	549
Activities for Which the 20,000-Hour Employee Threshold Does Not Apply:	None of the above
Activities Relevant to Reporting Dioxins, Furans and Hexachlorobenzene:	None of the above
Activities Relevant to Reporting of Polycyclic Aromatic Hydrocarbons (PAHs):	Wood preservation using creosote: No
Is this the first time the facility is reporting to the NPRI (under current or past ownership):	No
Is the facility controlled by another Canadian company or companies:	Yes
Did the facility report under other environmental regulations or permits:	No
Is the facility required to report one or more NPRI Part 4 substances (Criteria Air Contaminants):	Yes
Was the facility shut down for more than one week during the year:	No
Operating Schedule - Days of the Week:	Mon, Tue, Wed, Thu, Fri, Sat, Sun
Usual Number of Operating Hours per day:	24
Usual Daily Start Time (24h) (hh:mm):	00:00

Substance List

CAS RN	Substance Name	Releases	Releases (Speciated VOCs)	Disposals	Recycling	Unit
--------	----------------	----------	---------------------------	-----------	-----------	------

CAS RN	Substance Name	Releases	Releases (Speciated VOCs)	Disposals	Recycling	Unit
67-64-1	Acetone	1.6060	N/A	N/A	N/A	tonnes
NA - 12	Selenium (and its compounds)	10.5060	N/A	70.2720	N/A	kg
NA - M16	Volatile Organic Compounds (VOCs)	14.7020	N/A	N/A	N/A	tonnes

Applicable Programs

CAS RN	Substance Name	NPRI	ON MECP TRA	ON MECP Reg 127/01	First report for this substance to the ON MECP TRA
67-64-1	Acetone		Yes	Yes	No
NA - 12	Selenium (and its compounds)	Yes	Yes		No
NA - M16	Volatile Organic Compounds (VOCs)	Yes	Yes		No

General Information about the Substance - Releases and Transfers of the Substance

CAS RN	Substance Name	Was the substance released on-site	The substance will be reported as the sum of releases to all media (total of 1 tonne or less)	1 tonne or more of a Part 5 Substance (Speciated VOC) was released to air
NA - 12	Selenium (and its compounds)	Yes	No	No
NA - M16	Volatile Organic Compounds (VOCs)		No	No

General Information about the Substance - Disposals and Off-site Transfers for Recycling

CAS RN	Substance Name	Was the substance disposed of (on-site or off-site), or transferred for treatment prior to final disposal	Is the facility required to report on disposals of tailings and waste rock for the selected reporting period	Was the substance transferred off-site for recycling
NA - 12	Selenium (and its compounds)	Yes	No	No
NA - M16	Volatile Organic Compounds (VOCs)			

General Information about the Substance - Nature of Activities

CAS RN	Substance Name	Manufacture the Substance	Process the Substance	Otherwise Use of the Substance
NA - 12	Selenium (and its compounds)	For on-site use/processing	As a reactant	As a physical or chemical processing aid
NA - M16	Volatile Organic Compounds (VOCs)			

TRA Quantifications

CAS RN	Substance Name	Use, Creation, Contained in Product	Quantity	Use ranges for public reporting
67-64-1	Acetone	Use	8.778 tonnes	Yes
67-64-1	Acetone	Creation	0 tonnes	Yes
67-64-1	Acetone	Contained in Product		
NA - 12	Selenium (and its compounds)	Use	350.911 kg	Yes
NA - 12	Selenium (and its compounds)	Creation	0 kg	Yes
NA - 12	Selenium (and its compounds)	Contained in Product	270.133 kg	Yes

TRA Quantifications - Others

CAS RN	Substance Name	Change in Method of Quantification	Reasons for Change	Description of how the change impact tracking and quantification of the substance	Description of how an incident(s) affected quantifications	Significant Process Change	Reason for the significant process change
67-64-1	Acetone					No	
NA - 12	Selenium (and its compounds)					No	

On-site Releases - Releases to air

CAS RN	Substance Name	Category	Basis of Estimate	Detail Code	Quantity
67-64-1	Acetone	Fugitive Releases	C - Mass Balance		1.606 tonnes
NA - 12	Selenium (and its compounds)	Fugitive Releases	C - Mass Balance		10.506 kg
NA - M16	Volatile Organic Compounds (VOCs)	Stack or Point Releases	C - Mass Balance		0 tonnes
NA - M16	Volatile Organic Compounds (VOCs)	Fugitive Releases	C - Mass Balance		14.702 tonnes

On-site Releases - Releases to air - Total

CAS RN	Substance Name	Total - Releases to Air
67-64-1	Acetone	1.606 tonnes

CAS RN	Substance Name	Total - Releases to Air
NA - 12	Selenium (and its compounds)	10.506 kg
NA - M16	Volatile Organic Compounds (VOCs)	14.702 tonnes

On-site Releases - Total

CAS RN	Substance Name	Total releases
NA - 12	Selenium (and its compounds)	10.506 kg

On-site Releases - Quarterly Breakdown of Annual Releases

CAS RN	Substance Name	Quarter 1	Quarter 2	Quarter 3	Quarter 4
NA - 12	Selenium (and its compounds)	25	25	25	25

On-site Releases - Monthly Breakdown of Annual Releases

CAS RN	Substance Name	Jan	Feb	Mar	Apr	May	June	July	Aug	Sept	Oct	Nov	Dec
NA - M16	Volatile Organic Compounds (VOCs)	8.33	8.33	8.34	8.33	8.33	8.34	8.33	8.33	8.34	8.33	8.33	8.34

On-site Releases - Reasons for Changes in Quantities Released from Previous Year

CAS RN	Substance Name	Reasons for Changes in Quantities from Previous Year	Comments
NA - 12	Selenium (and its compounds)	No significant change (i.e. <10% or no change)	
NA - M16	Volatile Organic Compounds (VOCs)	No significant change (i.e. <10% or no change)	

Disposals - Off-site Disposal (excluding Tailings and Waste Rock)

CAS RN	Substance Name	Category	Basis of Estimate	Detail Code	Quantity
NA - 12	Selenium (and its compounds)	Landfill	C - Mass Balance		70.272 kg

Disposals - Off-site Disposal (excluding Tailings and Waste Rock) - Total

CAS RN	Substance Name	Total - Off-site Disposals
NA - 12	Selenium (and its compounds)	70.272 kg

Disposals - Off-site Disposal (excluding Tailings and Waste Rock) - By Facilities

CAS RN	Substance Name	Category	Off-site Name	Off-site Address	Quantity
NA - 12	Selenium (and its compounds)	Landfill	Newalta Corp. - Barrie	1131 Snow Valley Rd., Barrie, ON, Canada	70.272 kg

Disposals - Total Quantity Disposed (All Media)

CAS RN	Substance Name	Total Quantity Disposed (All Media)
NA - 12	Selenium (and its compounds)	70.272 kg

Disposals - Reasons and Comments

CAS RN	Substance Name	Reasons Why Substance Was Disposed	Reasons for Changes in Quantities from Previous Year	Comments
NA - 12	Selenium (and its compounds)	Unusable parts or discards	No significant change (i.e. <10% or no change)	

Recycling - Reasons and Comments

CAS RN	Substance Name	Reasons Why Substance Was Recycled	Reasons for Changes in Quantities Recycled from Previous Year	Comments
NA - 12	Selenium (and its compounds)		No significant change (i.e. <10% or no change)	

Comparison Report - Enters, Creation, Contained in Product

CAS RN	Substance Name	Is Breakdown	Category	Quantity	Last Reported Quantity	Reporting Period of Last Reported Quantity	Change	% Change
67-64-1	Acetone	No	Enters the facility (Use)	8.778 tonnes	11.080 tonnes	2017	-2.302	-20.78
67-64-1	Acetone	No	Creation	0 tonnes	0 tonnes	2017	0	
NA - 12	Selenium (and its compounds)	No	Enters the facility (Use)	350.911 kg	323.759 kg	2017	27.152	8.39
NA - 12	Selenium (and its compounds)	No	Creation	0 kg	0 kg	2017	0	

CAS RN	Substance Name	Is Breakdown	Category	Quantity	Last Reported Quantity	Reporting Period of Last Reported Quantity	Change	% Change
NA - 12	Selenium (and its compounds)	No	Contained in Product	270.133 kg	240.29 kg	2017	29.843	12.42

Comparison Report - Enters, Creation, Contained in Product : Reason(s) for Change

CAS RN	Substance Name	Reason(s) for Change	Other Reason
67-64-1	Acetone	Increase in production levels	
NA - 12	Selenium (and its compounds)	No reasons - quantities approximately the same	

Comparison Report - On-site Releases

CAS RN	Substance Name	Is Breakdown	Category	Quantity	Last Reported Quantity	Reporting Period of Last Reported Quantity	Change	% Change
67-64-1	Acetone	No	Total Releases to Air	1.606 tonnes	6.19 tonnes	2017	-4.584	-74.05
67-64-1	Acetone	No	Total Releases to Water	0 tonnes	0 tonnes	2016	0	
67-64-1	Acetone	No	Total Releases to Land	0 tonnes	0 tonnes	2016	0	
67-64-1	Acetone	No	Total Releases to All Media	0 tonnes	0 tonnes	2016	0	
NA - 12	Selenium (and its compounds)	No	Total Releases to Air	10.506 kg	9.587 kg	2017	0.919	9.59
NA - 12	Selenium (and its compounds)	No	Total Releases to Water	0 kg	0 kg	2017	0	
NA - 12	Selenium (and its compounds)	No	Total Releases to Land	0 kg	0 kg	2017	0	
NA - 12	Selenium (and its compounds)	No	Total Releases to All Media	0 kg	0 kg	2016	0	

Comparison Report - On-site Releases - Reason(s) for Change

CAS RN	Substance Name	Reason(s) for Change	Other Reason
67-64-1	Acetone	Decrease in production levels	
NA - 12	Selenium (and its compounds)	No reasons - quantities approximately the same	

Comparison Report - Disposals On-site, Off-site and Tailings and Waste Rock

CAS RN	Substance Name	Is Breakdown	Category	Quantity	Last Reported Quantity	Reporting Period of Last Reported Quantity	Change	% Change
NA - 12	Selenium (and its compounds)	No	Total On-site Disposals	0 kg	0 kg	2017	0	
NA - 12	Selenium (and its compounds)	No	Total Off-site Disposals	70.272 kg	73.882 kg	2017	-3.610	-4.89
NA - 12	Selenium (and its compounds)	No	Total Off-site transfer for treatment Prior to Final Disposal	0 kg	0 kg	2017	0	
NA - 12	Selenium (and its compounds)	No	Total On-site Disposal of Tailings and Waste Rock	0 kg	0 kg	2017	0	
NA - 12	Selenium (and its compounds)	No	Total Off-site Disposal of Tailings and Waste Rock	0 kg	0 kg	2017	0	

Comparison Report - Disposals On-site, Off-site and Tailings and Waste Rock - Reason(s) for Change

CAS RN	Substance Name	Reason(s) for Change	Other Reason
NA - 12	Selenium (and its compounds)	No reasons - quantities approximately the same	

Pollution Prevention

Does the facility have a documented pollution prevention plan?

No

Did the facility complete any pollution prevention activities in the current NPRI reporting year

No

Progress on TRA Plan - Objectives

CAS RN	Substance Name	Objectives
67-64-1	Acetone	The objective of this Plan is to identify and evaluate a variety of toxics substance reduction options to reduce the use, disposal and release to air of acetone at the Facility. Further, this plan will determine the technical and economic feasibility of each option to determine which, if any, are viable for implementation at this time.
NA - 12	Selenium (and its compounds)	The objective of this Plan is to identify and evaluate a variety of toxics substance reduction options to reduce the use, disposal and release to air of selenium at the Facility. Further, this plan will determine the technical and economic feasibility of each option to determine which, if any, are viable for implementation at this time.

CAS RN	Substance Name	Objectives
--------	----------------	------------

Progress on TRA Plan - Use Targets

CAS RN	Substance Name	Quantity	Years	Description of Target
67-64-1	Acetone	No quantity target	No timeline target	
NA - 12	Selenium (and its compounds)	No quantity target	No timeline target	

Progress on TRA Plan - Creation Targets

CAS RN	Substance Name	Quantity	Years	Description of Target
67-64-1	Acetone	No quantity target	No timeline target	
NA - 12	Selenium (and its compounds)	No quantity target	No timeline target	

Progress on TRA Plan - Additional Actions

CAS RN	Substance Name	Were there any additional actions outside the plan taken during the reporting period to reduce the use and/or creation of the substance?	Describe any additional actions that were taken during the reporting period to achieve the plan's objectives	Provide a public summary of the description of the additional action taken
67-64-1	Acetone	No		
NA - 12	Selenium (and its compounds)	No		

Progress on TRA Plan - Reductions due to additional actions taken

CAS RN	Substance Name	Reductions due to additional actions taken	Quantity
67-64-1	Acetone	The amount of reduction in use of the substance at the facility during the reporting period that resulted due to the additional actions.	
67-64-1	Acetone	The amount of reduction in creation of the substance at the facility during the reporting period that resulted due to the additional actions.	
67-64-1	Acetone	The amount of reduction in the substance contained in product at the facility during the reporting period that resulted due to the additional actions.	
67-64-1	Acetone	The amount of reduction in release to air of the substance at the facility during the reporting period that resulted due to the additional actions.	
67-64-1	Acetone	The amount of reduction in release to water of the substance at the facility during the reporting period that resulted due to the additional actions.	
67-64-1	Acetone	The amount of reduction in release to land of the substance at the facility during the reporting period that resulted due to additional actions.	
67-64-1	Acetone	The amount of reduction in the substance disposed on-site (including tailings and waste rocks) at the facility during the reporting period that resulted due to the additional actions.	
67-64-1	Acetone	The amount of reduction in the substance disposed off-site (including tailings and waste rocks) at the facility during the reporting period that resulted due to the additional actions.	
67-64-1	Acetone	The amount of reduction in the substance recycled off-site at the facility during the reporting period that resulted due to the additional actions.	
NA - 12	Selenium (and its compounds)	The amount of reduction in use of the substance at the facility during the reporting period that resulted due to the additional actions.	
NA - 12	Selenium (and its compounds)	The amount of reduction in creation of the substance at the facility during the reporting period that resulted due to the additional actions.	
NA - 12	Selenium (and its compounds)	The amount of reduction in the substance contained in product at the facility during the reporting period that resulted due to the additional actions.	
NA - 12	Selenium (and its compounds)	The amount of reduction in release to air of the substance at the facility during the reporting period that resulted due to the additional actions.	
NA - 12	Selenium (and its compounds)	The amount of reduction in release to water of the substance at the facility during the reporting period that resulted due to the additional actions.	
NA - 12	Selenium (and its compounds)	The amount of reduction in release to land of the substance at the facility during the reporting period that resulted due to additional actions.	
NA - 12	Selenium (and its compounds)	The amount of reduction in the substance disposed on-site (including tailings and waste rocks) at the facility during the reporting period that resulted due to the additional actions.	
NA - 12	Selenium (and its compounds)	The amount of reduction in the substance disposed off-site (including tailings and waste rocks) at the facility during the reporting period that resulted due to the additional actions.	
NA - 12	Selenium (and its compounds)	The amount of reduction in the substance recycled off-site at the facility during the reporting period that resulted due to the additional actions.	

Progress on TRA Plan - Amendments

CAS RN	Substance Name	Were any amendments made to the toxic substance reduction plan during the reporting period	Description any amendments that were made to the toxic substance reduction plan during the reporting period	Provide a public summary of the description of any amendments that were made to the toxic substance reduction plan during the reporting period
67-64-1	Acetone	No		
NA - 12	Selenium (and its compounds)	No		

Report Submission and Electronic Certification

NPRI - Electronic Statement of Certification

Specify the language of correspondence

English

Comments (optional)

I hereby certify that I have exercised due diligence to ensure that the submitted information is true and complete. The amounts and values for the facility(ies) identified below are accurate, based on reasonable estimates using available data. The data for the facility(ies) that I represent are hereby submitted to the programs identified below using the Single Window Reporting Application.

I also acknowledge that the data will be made public.

Note: Only the person identified as the Certifying Official or the authorized delegate should submit the report(s) identified below.

Company Name

Raytheon Canada Limited

Certifying Official (or authorized delegate)

Katharine Rowe-Bailey

Report Submitted by

Katharine Rowe-Bailey

I, the Certifying Official or authorized delegate, agree with the statements above and acknowledge that by pressing the "Submit Report(s)" button, I am electronically certifying and submitting the facility report(s) for the identified company to its affiliated programs.

ON MECP TRA - Electronic Certification Statement

Annual Report Certification Statement

As of 29/05/2019, I, Katharine Rowe-Bailey, certify that I have read the reports on the toxic substance reduction plans for the toxic substances referred to below and am familiar with their contents, and to my knowledge the information contained in the reports is factually accurate and the reports comply with the Toxics Reduction Act, 2009 and Ontario Regulation 455/09 (General) made under that Act.

TRA Substance List*

CAS RN

Substance Name

67-64-1

Acetone

NA - 12

Selenium (and its compounds)

*Due to reporting system limitations, for the 2018 annual report the TRA Substance List may include new Volatile Organic Compounds (VOCs) and/or Dioxins and Furans congeners reported to NPRI only.

Company Name

Raytheon Canada Limited

Highest Ranking Employee

Katharine Rowe-Bailey

Report Submitted by

Katharine Rowe-Bailey

Website address

I, the highest ranking employee, agree with the certification statement(s) above and acknowledge that by checking the box I am electronically signing the statement(s). I also acknowledge that by pressing the 'Submit Report(s)' button I am submitting the facility record(s)/report(s) for the identified facility to the Director under the Toxics Reduction Act, 2009. I also acknowledge that the Toxics Reduction Act, 2009 and Ontario Regulation 455/09 provide the authority to the Director under the Act to make certain information as specified in subsection 27(5) of Ontario Regulation 455/09 available to the public.

Submitted Report

Period	Submission Date	Facility Name	Province	City	Programs
2018	29/05/2019	Raytheon ELCAN Optical Technologies	Ontario	Midland	NPRI, ON MECP TRA, ON MECP

Note: If there is a change in the contact information for the facility, a change in the owner or operator of the facility, if operations at the facility are terminated, or if information submitted for any previous year was mistaken or inaccurate, please update this information through SWIM or by contacting the National Pollutant Release Inventory directly.
