

Global Training Solutions

We prepare people for the world's most important missions.

Key Capabilities

- Blended solutions that combine live, virtual, constructive and cutting-edge gaming technologies.
- Life-cycle maintenance, logistics and operations in support of training.
- Supply, repair and depot maintenance facility with a global, 24/7 shipping capability.
- Management Information System technology (ATLAS) that optimizes operational availability, response time, logistics footprints and total ownership costs.
- Intelligence and unmanned aerial systems training.
- U.S. air traffic controller training across all domains – Academy, Tower and Field.

Raytheon is well known as a world-class provider of state-of-the-art electronics, mission systems integration and other capabilities in the areas of sensing; effects; and command, control, communications and intelligence systems.

Raytheon is also one of the world's top training providers. Nelson Hall, the leading global Business Process Outsourcing research and advisory firm, has rated Raytheon as the top-tier global training provider for the last five years.

Raytheon leverages high-consequence training expertise and the latest technologies to provide tailored learning and training support solutions around the world.

Raytheon

Raytheon performs high-consequence training around the world.

Military

- Raytheon's military training includes blended live, virtual, constructive and cutting-edge gaming solutions. We also provide maintenance, logistics and life-cycle sustainment for training ranges, devices, simulators and aids.

Government

- Raytheon's government training solutions use the latest technologies and innovations along with qualified hands-on training by bona fide subject matter experts.

Commercial

- We provide training outsourcing and performance consulting services in more than 100 countries and 28 languages
- Shifting Gears is a partnership with the U.S. Army, General Motors and Raytheon to provide automotive technician training to soldiers returning to civilian life. The first class graduated at Fort Hood, Texas in October 2014.
